

GRAN

Go Advance GRANBOARD3s

World
Share **No.1**

GRANBOARD, born in Japan, is the world's first electronic dart board to work with the app. Currently, it is played in 65 countries around the world and has an overwhelming world share and users. GRANBOARD is Japan's proud world standard home board.

"The Best quality home use dart board" has evolved into the next stage.

GRANBOARD 3s, which has been improved, will be released without changing the existing functions.

[The points of evolution are the three "s"]

1. The [silence] has evolved

Silence is always required for home use dart boards. Improved shock absorbers and structure help to achieve the number one silence as an electronic dart board.

2. [Sensor] reliability has evolved

Prevents false reactions by improving the sensor sheet material. In addition, by registering the outboard with two sensors, it prevents the false reaction and supports a smooth game by registering the out reliably.

3. [Segment] quality has evolved

New molds have been created to improve segment and spider quality. Not only the comfort dart sticking but also the durability.

- The latest GRANBOARD pro-model with LED features.
- The LED interlinked with app and has various scenarios such as hit, award video, etc.
- "LED GRAN MAT" and "HUE" by Phillips (both sold separately) allow you to create an attractive dynamic darts environment at home.
- Online match "GRAN ONLINE PLAY" is available.
- Superb noise reduction design.
- Built-in outer sensor with adjustable sensitivity (via GRANBOARD app).
- Energy efficient design with Bluetooth 4.0 (runs 3-6 months with 2 AA batteries).
- Most parts are replaceable (sold separately).
- Stylish round form body made of solid ABS material.
- Compatible with the plastic bracket (sold separately).

Product Dimensions: H 22.2in x W 22.2in x D 1.6in, Weight 6.6lbs

Package Dimensions: 23.6in x 23.6in x 2.6in

* To use the LED function, a micro USB adapter that can supply power of 1.5 amperes or more (recommended 2.4 amperes) is required. (Not included with this product.)

The points of evolution are the three “s”

GRANBOARD 3s, which has been improved, will be released without changing the existing functions.

Spider&NumberRing

The outer area is made thicker, making it easier to stick and improve strength.

sponge

Uses high-density sponge for improved noise reduction.

point1 / Sensor

Outboard is judged by two sensors. Supports smooth game progress by preventing false reactions and reliably determining outs.

point2 / Segment

By starting from rebuilding the mold to improve segment and spider quality, ease of sticking and bit durability have been improved. The mirror finish on the side of the segment allows for smooth movement and minimizes stacking.

point3 / Silent

Adopts a new shock absorbing silent mat. Also, by improving the basic structure and each part, the quietness of home electronic dart board No.1 is realized.

Perfect Design

The stylish round design wins favors from darts players worldwide. The design idea of GRANBOARD3s realizes the demands of easy maintenance by user and the silence requirement for a Home darts board.

Easy Maintenance

The design itself is to enable the player to be able to maintain it himself. Player can buy the necessary parts separately.

Complete Silence Design

By its complete silence design, all segments are all deployed with noise absorbing material.

As many as 740 punching points on a back sheet are processed to enable GRANBOARD3s to achieve the highest silence level.

Integrated LED Action

Player can control GRANBOARD3s, LED mat and Hue via app and all the LED actions are interlinked.

Out Censor

Outer area is also deployed with the same vibration censor as on the board to judge the out. Censor sensibility is adjustable vis app.

Reliable IC Core Module

Reliable Made in Japan Bluetooth and GRANDBOARD control IC module is used.

Powerful APP

As superiority as GRANDBOARD, the functionality and games loaded in app receive strong support from darts players worldwide.

GRANBOARD3s
